ZMN Mühendislik

2026 CORPORATE CATALOG

STRONG STRUCTURES. SOLID PARTNERSHIPS.

End-to-end engineering and field expertise in formwork, reinforcement and concrete applications for structural construction.

zmnmuhendislik.com

ABOUT US

Engineering expertise, combined with field execution strength.

ZMN Engineering & Construction is rooted in field and structural construction experience dating back to 1998. Over the years, expertise in formwork, reinforcement, concrete and reinforced-concrete works has developed into a strong technical foundation for projects of varying scales and types.

Since strengthening its corporate structure in 2021, ZMN combines this field expertise with engineering, professional management, a strong technical team, planning and modern construction technologies. We approach trust, quality, occupational health and safety, time and cost management as a whole to deliver reliable, sustainable solutions.

Core areas of expertise

OUR EXPERTISE

One team, one quality standard across three critical disciplines.

01

FORMWORK

Accurate system selection, precise execution and strong site coordination.

02

REINFORCEMENT

Cutting, bending, tying and installation solutions for structural systems.

03

CONCRETE

Controlled, reliable concrete applications from foundations to shear walls and slabs.

01

FORMWORK WORKS

For formwork systems that determine the geometry and surface quality of reinforced-concrete structures, we select the solution best suited to project conditions and execute it with experienced site teams.

SCOPE

- Conventional and modular formwork systems
- Timber and steel formwork applications
- Column, beam, shear wall and slab formwork
- Focus on speed, dimensional accuracy and occupational safety

02

REINFORCEMENT WORKS

For reinforcement works that directly affect the structural system, we manage the process from material preparation through installation in compliance with project and site standards.

SCOPE

- Rebar cutting and bending
- Rebar tying and installation
- Foundation, column, beam and slab applications
- On-site inspection in accordance with project details

03

CONCRETE WORKS

From foundations to shear walls, columns, beams and slabs, we deliver durable results through proper pouring organization and controlled workmanship.

SCOPE

- Foundation and raft concrete
- Column, beam and slab concrete
- Shear wall concrete applications
- Pour planning and site coordination

PROJECTS

Our footprint on site is reflected in our references.

Selected examples from completed projects and ongoing sites across different sectors, scales and cities.

15

featured projects with visuals

2

ongoing construction sites

27

current references

COMPLETED

ADANA GRATIS CONSTRUCTION SITE

CLIENT

DEA YAPI

PERIOD

02/2025 - 09/2025

AREA

100,000 m²

STRUCTURAL CONSTRUCTION

Site coordination and quality workmanship across formwork, reinforcement and concrete applications.

COMPLETED

ÇANAKKALE EZINE ORGANIZED INDUSTRIAL ZONE FOODSTREAM FACTORY CONSTRUCTION

CLIENT

BK-MEKAR İNŞAAT

PERIOD

04/2025 - 10/2025

AREA

25,000 m²

STRUCTURAL CONSTRUCTION

Site coordination and quality workmanship across formwork, reinforcement and concrete applications.

COMPLETED

MALTEPE URBAN TRANSFORMATION SITE

CLIENT
ÇTK GROUP

PERIOD
11/2025 - 04/2026

AREA
12,500 m²

STRUCTURAL CONSTRUCTION

Site coordination and quality workmanship across formwork, reinforcement and concrete applications.

COMPLETED

MASLAK 1453 RESIDENTIAL PROJECT

CLIENT

AĞAOĞLU İNŞAAT

PERIOD

2012 - 2014

AREA

280,000 m²

STRUCTURAL CONSTRUCTION

Site coordination and quality workmanship across formwork, reinforcement and concrete applications.

COMPLETED

ANATOLIUM MARMARA SHOPPING MALL

CLIENT

MAYA - YILMAZ İNŞAAT

PERIOD

2015 - 2017

AREA

235,000 m²

STRUCTURAL CONSTRUCTION

Site coordination and quality workmanship across formwork, reinforcement and concrete applications.

COMPLETED

KARTAL TRAINING & RESEARCH HOSPITAL

CLIENT

KALYON - ARTİNTAŞ

PERIOD

2015 - 2017

AREA

130,000 m²

STRUCTURAL CONSTRUCTION

Site coordination and quality workmanship across formwork, reinforcement and concrete applications.

COMPLETED

IZMIR GÖZTEPE STADIUM

CLIENT

RÖNESANS - GÖRGÜLÜ

PERIOD

2017 - 2018

AREA

175,000 m²

STRUCTURAL CONSTRUCTION

Site coordination and quality workmanship across formwork, reinforcement and concrete applications.

COMPLETED

ANATOLIA CERAMICS FACTORY CONSTRUCTION

CLIENT

ÇELİK YAPI - ZTA İNŞAAT

PERIOD

2020 - 2022

AREA

270,000 m²

STRUCTURAL CONSTRUCTION

Site coordination and quality workmanship across formwork, reinforcement and concrete applications.

COMPLETED

ANTALYA SERIK WASTEWATER TREATMENT PLANT

CLIENT

ÇELİK YAPI - ZTA İNŞAAT

PERIOD

2020 - 2021

AREA

65,000 m²

STRUCTURAL CONSTRUCTION

Site coordination and quality workmanship across formwork, reinforcement and concrete applications.

ONGOING

GEORGIA MAQRO CITY TBILISI PROJECT

CLIENT
MAQRO İNŞAAT

PERIOD
11/2025 -

AREA
250,000 m²

STRUCTURAL CONSTRUCTION

Site coordination and quality workmanship across formwork, reinforcement and concrete applications.

ONGOING

BAŞAKŞEHİR HUZZAK RESIDENTIAL PROJECT

CLIENT

HUZZAK YAPI

PERIOD

2026 -

AREA

20,000 m²

STRUCTURAL CONSTRUCTION

Site coordination and quality workmanship across formwork, reinforcement and concrete applications.

COMPLETED

MANZARA ADALAR KARTAL PROJECT

CLIENT

ANT YAPI

PERIOD

2015 - 2016

AREA

150,000 m²

STRUCTURAL CONSTRUCTION

Site coordination and quality workmanship across formwork, reinforcement and concrete applications.

COMPLETED

AKYAKA SHOPPING MALL

CLIENT

YÖNTEM İNŞAAT

PERIOD

2013 - 2014

AREA

120,000 m²

STRUCTURAL CONSTRUCTION

Site coordination and quality workmanship across formwork, reinforcement and concrete applications.

COMPLETED

ACIBADEM UNIVERSITY

CLIENT

GÜRSOY - YÖNTEM İNŞAAT

PERIOD

2011 - 2012

AREA

85,000 m²

STRUCTURAL CONSTRUCTION

Site coordination and quality workmanship across formwork, reinforcement and concrete applications.

COMPLETED

ÇAMLIVADİ RESIDENCES

CLIENT

ARTAŞ İNŞAAT - GÖRGÜLÜ İNŞAAT

PERIOD

2021 - 2022

AREA

70,000 m²

STRUCTURAL CONSTRUCTION

Site coordination and quality workmanship across formwork, reinforcement and concrete applications.
